IT Project Manager | PMO | Digital Transformation | Business Continuity | Automation | PMP | PMI-ACP | Agile & Waterfall | Business Intelligence | Power BI | SQL | Python | JavaScript | Jira | OKRs | LLMs & AI | Software

PROFESSIONAL PROFILE

Master of Business Administration with a focus on Marketing and Finance, and a trilingual Computer Engineer (Spanish, English, and French), with solid experience as a PMO Director and IT Project Manager leading technology portfolios in the banking, insurance, telecommunications, legal, NGO, consulting, and government sectors. Certified as a PMP, PMI-ACP, and Scrum Foundation, with a track record in Enterprise implementations, business continuity, digital transformation, and automation using Agile, Scrum, Waterfall, and hybrid methodologies. Experience in C-Level stakeholder management, OKRs, KPIs, and executive reporting. Proficient in Data Warehousing, ETL, Power BI, SQL, SQL Server, Cognos, Power Apps, Microsoft Project, Jira, Confluence, Python, JavaScript, AI, automation, LLMs/Prompt Engineering, and implementation of ISO 27001, ISO 22301, and ISM3 frameworks for process optimization, risk management, and strengthening technology operations.

WORK EXPERIENCE

Save the Children, Regional Digital Transformation Project Manager

Ene. 2025 - Dic. 2025

Responsibilities:

- Lead the implementation of the PRIME system for project management, ensuring process standardization, operational traceability, and strategic alignment with OKRs in Colombia and the LAC region.
- Coordinate portfolios of technological initiatives by managing schedules, risks, dependencies and regional stakeholders, ensuring compliance with strategic milestones and global objectives.
- Design and execute digital transformation strategies, technological adoption and KPI monitoring through executive reports and strategic indicators, strengthening decision-making, data quality and operational maturity of projects.

Achievements:

- I led the recovery of PRIME system adoption indicators, increasing the compliance level from 50% to 95% in just 4 months and maintaining sustained results throughout 2025.
- I successfully implemented PRIME in Colombia, achieving 100% compliance ahead of the target date and aligning the largest country in the region with global execution standards.

Save the Children, Regional technology for development specialist

Mar. 2022 - Dic. 2024

Responsibilities:

- Lead the implementation of global technology platforms for teams in the LAC region, coordinating international stakeholders and ensuring strategic alignment, achievement of objectives and regional adoption.
- Manage end-to-end technology initiatives using Agile and Waterfall methodologies, including planning, monitoring, supplier evaluation, risk management, and coordination of multidisciplinary teams.
- Design regional management and monitoring solutions using Microsoft PowerApps and executive dashboards in Power BI, strengthening the visibility of KPIs, strategic reporting, and data-driven decision-making.

Achievements:

- I implemented a mobile learning app for migrant children in the US, in partnership with UNICEF and HIAS impacting more than 2,000 beneficiaries through a technological solution focused on interactive education.
- I managed more than 10 technology initiatives in sectors such as education, health and poverty reduction, ensuring successful execution and strategic visibility.

Axxis Systems, PMO Director

Oct. 2020 - Feb. 2022

Responsibilities:

- Lead the PMO for insurance software implementation projects in countries such as Suriname, Chile, Egypt and Costa Rica, ensuring the comprehensive management of schedules, budget, risks, resources and strategic deliverables.
- Manage multidisciplinary teams made up of PMs, functional leaders and development teams, aligning priorities, dependencies and meeting critical milestones in multicultural and international environments.
- Define metrics, KPIs and executive reporting schemes, as well as coordinate negotiations with clients, validate requirements, manage changes and quality control, ensuring implementations aligned with business objectives and technical standards.

Achievements:

- I led international implementations of insurance software in countries such as Suriname and Chile, managing strategic projects with contracts of up to USD 1 million.

- I successfully completed 100% of the project implementation in Costa Rica, resolving operational deviations and ensuring compliance with objectives defined with the client.
- I successfully coordinated the closing of the parameterization phase of the project in Egypt, ensuring alignment between teams and stakeholders, guaranteeing readiness for the next implementation stages.

Project Manager, Delta Bank

Dic. 2018 - Ene 2020

Responsibilities:

- Lead strategic and technological transformation initiatives for the bank, aligning innovation, operations and growth projects with institutional objectives and business priorities.
- Coordinate the construction of the 3-year institutional strategic plan, articulating stakeholders (C-Level) and functional areas to define roadmap, strategic initiatives, OKRs and monitoring metrics.
- Manage end-to-end technology projects related to core banking, payment solutions and financial integrations, ensuring control of scope, risks, testing, implementation and executive follow-up through management reporting models and tools such as Excel and Microsoft Project.

Achievements:

- I led the development of the bank's 3-year institutional strategic plan, aligning innovation, growth, and technological modernization initiatives with the organization's vision.
- I implemented the MPOS solution integrated into the Bantotal banking core, strengthening electronic payment capabilities and improving the customer transaction experience.

Centauri Technologies Corporation, Information Systems Manager and Senior Consultant

Sep. 2009 - Nov. 2018

Responsibilities:

- Lead the sale and execution of IT projects focused on cybersecurity, business continuity, strategic planning and technological transformation for clients in different sectors, ensuring alignment with objectives, international standards and strategic management of relationships with clients, prospects and partners.
- Manage the complete cycle of projects and consultancies, from requirements gathering, proposal preparation and commercial negotiation, to planning, team coordination and executive follow-up using tools such as Jira and Microsoft Project.
- Implement security and continuity frameworks and protocols such as ISO 27001, ISO 22301, ISM3, Business Continuity Plans (BCP) and Disaster Recovery Plans (DRP), strengthening operational resilience, governance, risk management and evolution of technological platforms.

Achievements:

- I led the development of the Panama Digital Hub ICT Strategic Plan 2016–2026 for CAPATEC, contributing to the definition of strategic initiatives for the national technology ecosystem.
- I led the development of the Strategic Technology Plan for the Electoral Tribunal of Panama, supporting its monitoring for 5 consecutive years.
- I led the strategic support to the Electoral Tribunal of Panama in the process of increasing the level of maturity in information security processes through the implementation of the ISM3 standard, strengthening the standardization and adoption of best practices in security processes.
